

Holy Family Home

NOTICE to all Visitors

March 17, 2020

Due to the COVID-19 pandemic, effective immediately, Holy Family Home, Inc. is prohibiting all visits from families, visitors, and non-medically necessary service providers, until further notice. This is consistent with provincial direction announced today.

Many of our residents have underlying medical conditions that place them at the greatest risk of becoming severely ill due to the virus.

The only exception will be allowing families to visit residents who are on End of Life and all necessary precautions will be taken.

We recognize that this is a difficult situation for families and our residents but we hope you will understand that these precautions are necessary to protect your loved one.

We ask for your prayers as we face this enormous challenge.
